### I ANALYSIS

First quarter 2009 profitability is up 0.2 point in comparison to Q1 2008.

At a constant exchange rate the organic growth will be 5.4%.

The organic growth is calculated by a comparison between the consolidated results reconstructed to eliminate companies that were not present in the prior period.

The revenue generated by the software portfolio represents 48% of the total group revenue.

### II PROSPECTS FOR FY 2009

Considering the current difficult economic environment Sword will be concentrating on protecting its profitability rather than pursuing aggressive levels of organic growth.

Sword will continue its evolution towards being principally a software company.

The FY2009 budgeted profitability will be attained.
