

Sword Data Academy Day

9th August from 10:00am

Why Attend

- Our Data Academy Open Day is a great way to learn about Sword and career opportunities as a Junior Data Engineer.
- Learn about the exciting technologies we work with in helping customers on their data-driven journey, across a range of public and private sector organisations.
- The Sword Data Academy is a great way to earn whilst you learn. Successful applicants for our Junior Data Engineer roles will become Microsoft Certified Data Engineers on graduation from the Sword Data Academy.

What's Involved

- All aspiring Data Engineers should attend the session on Tuesday 9th August at 10.00am in our Glasgow office.
- On the day you will learn what it's like in our Data Academy, hearing first-hand from some of our Data Engineers. They will give you an insight into what it is like to work as a Data Engineer at Sword.
- You will also get the opportunity to network informally with some of the team at Sword over lunch. This is a great chance to hear about their experiences and get a feel for our inclusive culture, and what career with Sword could mean for you.

What Next

- Please confirm your place on the Sword Data Academy Day by emailing uk.recruiting@sword-group.com
- Bring along your CV as there will be an opportunity for interview with a member of our team.
- We will follow up afterwards with successful candidates to continue their journey with the Sword Data Academy.
